Soul Guidance

A Creative Workshop

Learn expressive art and storytelling practices to reveal your soul's wisdom.

Your soul speaks a language that goes beyond the intellect; a language that has been forgotten during modern times and needs to be experienced to be remembered.

When you are in touch with the wisdom of your soul, you become strong, grounded and brave, no matter what journey life takes you on.

Without your soul and soul story, you could not be who you are today and just like the branches of a tree, all souls draw nourishment from the same source.

Allow yourself to be guided into a creative state of being where your inner wisdom will be revealed to you through intuitive drawing and writing.

I use energy healing and guided meditation to take you into a frequency that allows for creative soul communication.

Caroline Yazı | Holistic Life Coach

I offer inspiration and support for a holistic lifestyle to motivated individuals and groups.
